

## STEM Edge Series CLEP Exam Prep Science & Math

### Learn America's custom learning plans and tools target your personal educational needs

Step 1

#### **Pre-Assessment**

Take our pre-assessment exam to outline your individual strengths and weaknesses.

Step 2

#### **Personally Planned Curriculum**

Based on your assessment a personalized curriculum path is determined and mapped out for you.

Step 3

#### **Periodic Formative Updates**

Through formative assessments and analysis along the way our instructors monitor your progress and guide you.

Step 4

#### **Interactive Moderated On-line Forum**

Faculty and teaching assistant moderate on-line forums / course discussions, to help support your course questions.

Step 5

#### **Personalized Progress Report**

Your progress report highlights and directs you to any remaining areas needing focus during the last few weeks of the program.

Step 6

#### **Ready Review - One Week Prior to Exam**

A final assessment, outlines your level of exam readiness.

**Practice Tests Available Anytime. Students may access simulated practice tests designed by our experts.**
